PERSONAL PROJECTS

NFL Rosters (06/2019 – 06/2019) ↗
- A SPA I developed that utilizes the Sportsdata API to display NFL rosters.

My Portfolio Website (06/2019 – Present) ↗
- Integrated a react carousel to display visual links to my projects.
- Used JSON to create a modifiable template style SPA

CryptoClash - Dashboard (07/2019 – Present) ↗
- Revamped the User Interface, adding official logos and colors.

Advanced-React-CLI (06/2019 – Present) ↗
- Contributed to the input logic to improve the User Experience.

E-commerce clothing store (06/2019 – Present) ↗
- Developed a fully functional E-commerce web app with Stripe API integrations.

Face Detection App (05/2019 – 06/2019) ↗
- Utilized Clarifai's face detection API to allow users to upload a photo for the application to find the faces. Used a database to keep track of the users and their number of application uses.

ORGANIZATIONS

Dev Isle (06/2019 – Present) ↗
Contributor

Zero to Mastery (03/2019 – Present) ↗
Student/Alumni
